

West University Math Club

Looking for challenging, fast-paced math fun? Want to learn how to solve cool math problems and play math games? Then WUES Math Club is the place for you!

The WUES Math Club is continuing this year with a major focus on the Elementary Math Olympiad contest for grades 4-6. The Math Olympiad contests are held once a month at school and are written tests that target problem solving skills. For more information and sample contests, go to www.moems.org

At Math Club meetings we will work on problem solving strategies, including some algebra. We will also practice some number sense and take a peek at some mathematical ideas just for the fun of it.

When: Once a week on Mondays after school, starting 9/21/09
